

InBody

Take Fitness to the Next Level with Body Composition Analysis

The InBody 570 gives a comprehensive review of body composition including skeletal muscle mass, total body water, and percentage body fat. In addition, each user will receive a unique ID code so each time you visit, you can see your progress.

- Guided by a certified Inbody specialist who will explain scan results and answer any questions
- Scan and analysis typically takes between 15 and 30 minutes
- It is recommended to repeat scans every 2-4 months to track changes over time.

PRICING

\$35 for one

\$50 for two

\$60 for three
